

Department of Biology

Plan of lectures

for students of 1st year 1st semester 2025/2026

Subject “Medical biology and general genetics”

Day of week	Date	Time	Topic	Lecturer
Wednesday	04.03.2026	08.00 –	Characteristics of genetic material.	Potenko V.V.
	18.03.2026	09.25	Gene expression and repression in pro- and eukaryotes.	Potenko V.V.
	01.04.2026		Chromosome and genome level of hereditary material organization. Gene linkage.	Potenko V.V.
	15.04.2026		Diversity of organisms. /Bases of human genetics. Human hereditary diseases.	Potenko V.V.

Room: Lecture hall, Hostel No. 2, Bogdanova St. 2

Доцент

Протасовицкая Р.Н.
